

Storm Water Pollution....

BE A PART OF THE SOLUTION

Markers have been placed in areas throughout the City to remind citizens that all storm water drains to the River. If you would like a marker placed on a storm drain at your business, your residence, or a City drain near you, the Washington Soil and Water Conservation District can place one at no charge. Please contact us at 740-885-3312.

Look for Storm Drain Markers in your neighborhood !
